

Rob-

I got the spectrum Puny Tune the other day. I want you to know that I am very proud of your work. Your Puny Tunes are essentially perfect, and I'm a pretty critical judge.

The finish is flawless, the cutting and sanding of the undercut is perfect, the fipple and placement of the plug produce a perfect, clear and crisp tone, the tuning is right on the money.

I was always pretty fussy about how I made the Puny Tunes, and it's a little humbling to see that you are able to make them every bit as good as I ever did. You were sure the right guy to take them up.
